Taskize for CSDR Settlement Discipline gives a cost-effective solution for fail management workflow so you can focus investment in core processes.

Taskize provides a secure environment for the parties to manage each phase of the fail resolution process together, in real-time, especially when chains are involved across multiple settlement days.

With Taskize the parties involved in the failed trade have a shared understanding and know which member of staff at which entity is responsible for the next action, so settlement can be corrected quickly.

If the process moves beyond the extension period, buy-in can be orchestrated smoothly ensuring that there is no confusion and parties are seeing the same information at the same time.

Taskize is already used by over 190 financial organisations to resolve post-trade issues, and dealing with CSDR is a natural progression.

**Sign-up is simple with connectivity to market infrastructures  
including Euroclear, LCH and DTCC Exception Manager**

## Key benefits for participants impacted by the CSDR Settlement Discipline

	Settlement period	Extension period	Buy-in period
<b>As a Seller</b>	<p>Quickly navigate to right person at your counterparty to reduce problem resolution times</p> <p>Avoid penalties for failed security delivery</p> <p>Provide evidence to regulators of measures taken to limit fails</p>	<p>Prioritise your operational workload to avoid continued penalties and potential buy-in costs</p>	<p>Standardise the way you interact with the different parties involved in the buy-in process</p> <p>Receive up-to-date information on executed buy-ins and potential cash compensation details</p>
<b>As the Buyer</b>	<p>Pro-actively reach out to your counterpart to reduce problem resolution times</p> <p>Avoid penalties for failed cash delivery</p> <p>Provide evidence to regulators of measures taken to limit fails</p>	<p>Prioritize failing trades to avoid operational costs and risks associated with activating the buy-in process</p>	<p>Facilitate &amp; standardise the buy-in communication process with all parties, including buy-in agents</p> <p>Provide a clear audit trail to your regulators evidencing your adherence to the CSDR buy-in process</p>
<b>As the CSD</b>	<p>Support settlement break resolution to help your clients avoid penalties</p> <p>Provide evidence to regulators that you are taking action to improve settlement efficiency through collaboration with your clients</p>	<p>Quickly find the most appropriate and responsible operator in your participant firm to communicate penalty information</p> <p>Facilitate the appeal process with your participants inside a secure resolution space, in parallel to processing penalties</p>	<p>Receive final buy-in and possible cash compensation information.</p> <p>Provide a common and transparent audit trail to your regulators evidencing your adherence to the CSDR buy-in process</p>
